Springer Mai 2012, 2012. Taschenbuch. Book Condition: Neu. 235x155x23 mm. This item is printed on demand - Print on Demand Neuware - The contributions to this volume are drawn from the interdisciplinary research carried out within the Sonderforschungsbereich (SFB 378), a special long-term funding scheme of the German National Science Foundation (DFG). Sonderforschungsbereich 378 was situated at Saarland University, with colleagues from artificial intelligence, computational linguistics, computer science, philosophy, psychology and in its final phases cognitive neuroscience and psycholinguistics. The funding covered a period of 12 years, which was split into four phases of 3 years each, ending in December of 2007. Every sub-period culminated in an intensive reviewing process, comprising written reports as well as on-site presentations and demonstrations to the external reviewers. We are most grateful to these reviewers for their extensive support and critical feedback; they contributed their time and labor freely to the DFG, the independent and self-organized institution of German scientists. The final evaluation of the DFG reviewers judged the overall performance and the actual work with the highest possible mark, i.e. excellent. 436 pp. Englisch.
