Not illustrated. 1900 Excerpt: . of similar length were driven from the main drift 50 feet apart, the last one being opened at a point 75 feet distant from the entrance of the tunnel. There were three lifters in this last cross drift, two in the left arm and one at the end of the right arm. The main drift was tamped from the entrance to the first cross-drift. The drifts were 3 by 4 feet in size. The blast was simultaneously fired at ten different points by electricity. The mass shattered was reported as 200 feet long, 150 feet wide, and 73 feet deep. At the Enterprise Mine, Nevada County, with 250 feet bank, a blast of 1,700 kegs was fired. Paragon Mine Blast.--In 1874 there was a blast of 700 kegs black powder set off at the Paragon Mine, Placer County. The details of the drifts arranged for...

Reviews

Most of these publication is the perfect ebook accessible. It is amongst the most awesome publication i have got read through. You wont truly feel monotony at whenever you want of the time (that's what catalogs are for regarding in the event you request me).

-- **Prof. Edgar Kshlerin**

It is easy in study safer to comprehend. It can be writter in basic phrases and never confusing. It is extremely difficult to leave it before concluding, once you begin to read the book.
