Biliary Calculi, By ALEXANDER HUGH FERGUSON, M. D., Professor of Surgery, Chicago Post-Graduate Medical School and Hospital; Fellow of the Chicago Academy of Medicine, etc. The obscurity of its causes, the of tentimes atypical symptoms and signs, the manifold pathological changes, the frequent difficulty of its diagnosis, the as yet unsatisfactory medical treatment, and the unsettled state of the operative procedures recommended for its relief, very forcibly remind us that what, of biliary calculi, we sometimes seem to know, we know not. In one way or another, however, a great deal of knowledge has been gained regarding their formation, course, and consequences, and to-day the vast majority of persons afflicted with them can be permanently relieved. The observations that they are rarely found in infants and children: are more frequent in women, especially in mothers, than in men, so that...
