Reviews

It is great and fantastic. I actually have read and so i am certain that i am going to going to go through once again yet again in the future. I realized this ebook from my dad and i encouraged this book to find out.

Paperback. Book Condition: New. Not Signed; Microsoft's Systems Management Server (SMS) allows network administrators to provide software updates to users quickly and cost-effectively from a single machine. The administrator can update every user in a network at once, or choose a group of individuals - even a single user. All this can be accomplished from the administrator's computer: no need to visit everyone's computer to make changes, as in days of old. The SMS 2003 Field Guide addresses real-world problems and solutions, based on the broad consulting experience of the author. He knows where network administrators are liable to make mistakes, and offers help at their level. book.
