O. , 2004. LC Number: KF27 . S39 2004 OCLC Number: (OCoLC)55589906 Subject: High technology industries -- Employees -- Training of -- United States. Excerpt: . . . 11 Today, we will examine various strategies underway in Georgia and nationally to improve student achievement and teacher performance in math and science education, and how a well-educated science and technology workforce enhances job creation and economic vitality. The importance of elementary, secondary, and post-secondary math and science education to Georgia and the Nations high tech economy is apparent. Georgias science and technology workforce is ranked 11th in the Nation and continues to grow, its biotechnology workforce ranked 9th. The U. S. Department of Labor projects that new jobs requiring science, engineering, and technical training will increase four times higher than average job growth nationally. Clearly, workers require a solid academic foundation in science and math to succeed in this high tech workplace and to remain competitive with students from other nations in our global economy. However, only two out of every one hundred high school graduates will ever obtain an engineering or technical degree. Consequently, only nine out of a thousand women and eight out of a thousand minorities will ever obtain an engineering degree. Worse, most of the graduating class in Americas high schools are either not prepared or not sufficiently motivated to pursue advanced study in science, math, engineering, or technology fields. According to the National Assessment of Educational Progress, fewer than one-third of all U. S. students in grades four, eight, and twelve performed at or above proficient levels while a third...
